**MAINTAINING
DOLLARS
AND SENSE?**

**How do you service your customers when your
equipment keeps breaking down?**

**How do you get goods delivered when your
truck is continually in the garage?**

BUY NEW? BUY USED? REPAIR EXISTING EQUIPMENT?

V&H can help you make a profitable business decision!

We have over forty years of experience providing the best in New and Used Equipment. Our equipment is built to provide years of dependable service to our customers.

Now we have created a new program that can refurbish your existing equipment, thus saving your hard earned capital.

It also means that you have reliable trucks on hand to deliver goods to your markets.

Bring your equipment to one of our facilities and we will do a full inspection of your truck, crane, or equipment. We will provide you with a detailed report that outlines what it will cost to service and refurbish your equipment. Our certified technicians guarantee that your equipment is ready to meet the needs of your customers. All of this at a cost that will save you hard-earned capital to cover other aspects of your business.

THINGS TO CONSIDER: OLD VS. NEW

EPA Compliance – Regulations – EGR/SCR/DEF – Regeneration
2004 – 2010 – 2014 Emissions • Capital Expenditures
Bottom Line • Fuel Mileage • Safety • Company Image

The certified experts at V&H will give your vehicle a Complete Inspection. We will supply you with a Condition Report detailing what is needed to make your truck safe and dependable.

This inspection will include:

- Full chassis Dyno for Horsepower and Blow-by
- Oil sample analysis
- Steam cleaning and dye testing your engine for leaks
- Pressure testing of cooling system & test coolant condition for proper additive levels
- Pressure testing the Charge Air Cooler
- Perform a complete chassis and safety inspection
- Complete chassis lube
- Steam cleaning equipment and body for inspection
- Full running and testing of crane and high-rail equipment
- Complete chassis and equipment safety inspection
- Complete inspection of body and cab condition

V&H will provide you with:

- A complete condition report of your engine, driveline, equipment and chassis
- A list of recommended repairs and detailed reasons for each of them
- A complete estimate for any or all of the repairs your equipment needs.
